

# Education for Generation Green

---

It's a great time to learn about high-paying jobs in the construction, building, mechanical, technical and utility trades.

## **Is a high-paying, highly-skilled craft trade right for you? Ask yourself:**

- Do you like to work with your hands?
- Do you take a lot of pride in something that you have created or built?
- Do you have good basic math skills like algebra, geometry or trigonometry?
- Do you enjoy physical work?
- Do you like to solve challenges?
- Can you show up every day, on time for work and school with no excuses?
- Can you work with others as a team to complete a project?
- Can you follow written and verbal instructions accurately?
- Are you able to read and understand safety instructions and procedures?
- Are you excited about having a high paying job with benefits?

We can assist you to explore many of these skills and satisfying career possibilities. Contact us to learn about training opportunities, and more!
